FLACK—MCLAREN

DAUGHTER OF MR. AND MRS. MALCOLM MCLAREN BRIDE OF HENRY FLACK

A pretty wedding was solemnized Tuesday evening, September 16th, at the home of Mr. and Mrs. Malcolm McLaren, 303 North Isabel street, when they gave their only daughter, Miss Irene, in marriage to Henry Flack, son of Mr. and Mrs. F. L. Flack, of Eagle Rock.

About sixty of the friends and relatives of the young people surrounded them as they took the marriage vows. Shortly after eight o'clock to the strains of the wedding march played by Miss Marjorie Cox, the bride on the arm of her father, who later gave her away took her place beneath a large wedding bell of carnations in front of an altar improvised of ferns, palms and carnations. The bride wore the conventional wedding attire, a gown of heavy white satin with veil and wreath and carried bride's roses. Following the bride and her father were the bridesmaid, Miss Mildred Slack, of El Monte, gowned in pale blue silk with touches of pink and carrying Cecil Brunner rosebuds. She was accompanied by the best man, Albert Cox, of Eagle Rock. At the altar they met the groom and the minister, Rev. C. B. Hatch, of Anaheim, an old friend of the family of the groom, who performed the ring ceremony.

Following the ceremony the huge white wedding cake was brought in and cut by the bride who gave the first slice to the groom. She was happily surprised when she found the miniature bride perched on top of the cake was carrying a \$100 bill, a gift from her father. Many other beautiful and costly gifts were received by the young people and were duly admired by the guests.

Mr. and Mrs. Flack have left for a short honeymoon journey. On their return they will take charge of the McLaren home two or three months, while Mr. and Mrs. McLaren are touring the east. Mr. Flack has a splendid position with the Standard Oil Company, being one of their purchasing agents stationed in Los Angeles.

The wedding guests were Messrs. and Mesdames R. T. Brain, Jack Davis, J. E. Hubbard, Harry Clement, Thomas Fox, James McLaren, W. D. Alexander, L. A. Porter and F. Redmond, Miss McKinley, Miss Edna Hall, Mrs. F. Cox, Mrs. Mary Christy, Mrs. F. L. Hartzell, Miss Elizabeth Merrill, Mrs. W. E. Mack and daughter, Miss Marie Goldberg, F. W. Flack, Fred J. Haverly, John Sharpe, Walter Mack, all of Los Angeles; Mr. and Mrs. F. L. Flack, Albert Cox of Eagle Rock; Mr. and Mrs. A. V. Slack, Miss Mildred Slack, Miss Hazel Slack of El Monte; Mr. and Mrs. F. W. Flack of Pasadena; Mrs. Ella J. Lavin of Hollywood, Rev. C. B. Hatch of Anaheim, R. P. Juarez of Mexico City, Miss Ada F. Taylor, Mrs. M. F. Zernite, Mr. and Mrs. Malcolm McLaren, Robert McLaren of Glendale.

CARPENTERS NEVER SO BUSY AS NOW

Carpenters are quite important people in these days of extensive building. They are engaged weeks ahead and could work 12 to 15 hours a day if they so wished. W. S. Hartley commenced a house for himself at 555 Oak street more than two months ago and it is still but commenced, so incessant have been the demands on his time.

ON MEXICAN BORDER

NEAL WELLS WRITES OF CONDITIONS AT HEADQUARTERS EIGHTH CAVALRY

Mrs. P. A. Wells of 339 West Harvard street recently received a letter from her son Neal, who is at Marfa, Texas, as a member of the Eighth Cavalry, from which we are permitted to make the following extracts: "Capt. Matlack, whom you asked me about in your last letter, the one who delivered the ransom money to Renteria, the bandit, to secure the release of our two aviators and held back \$8500 of it in defiance of the robbers, is troop commander of 'K' troop. My troop, 'I,' didn't get a chance to go after this last bunch of bandits, as for 19 long months we had been doing just that kind of work along the border. We were after bandits every day. Now we are here in Marfa, a little town about 65 miles from the border. It is now a railroad town and has grown fast since the Eighth came here. The government is building a regimental garrison and there is an aviation field with six aeroplanes stationed here at all times. I am in good shape and getting along fine."

CHANGE OF POLICY

NO FURTHER URGING OF OUTSIDE CITIES TO ANNEX TO LOS ANGELES

Taught perhaps by the many expressions of resentment at her interference in the affairs of neighboring cities which she desired to annex in order to divide her intolerable burden of debt, Los Angeles has announced a different policy in the future. The Board of Public Service has authorized Chief Engineer Mulholland to state officially that the general attitude of the city from now on is that no territory should be urged to join Los Angeles, but should simply be given facts as to what service could be rendered by the water and electric departments in case the community decides to annex. Mr. Mulholland contended, and his views were coincided in by the Board of Public Service, that all new territory taken into the city should be required to contribute very largely to the increasing of the water storage capacity. It was contended also that as Los Angeles has so much territory to be served with gravity flow water that the annexation of further areas where water would have to be purified, should not be encouraged.

THE NEW BROADWAY SCHOOL BUILDING

The new Broadway school building is to be commenced just as soon as the money from the sale of the bonds is available. It is planned to build it a section at a time, occupy the first section as soon as completed and vacate the rooms of the old building adjacent thereto, tear these down and occupy the space with another section of the new building and so on till the new structure is done. By this plan school will not be interrupted in any of the grades.

AUTO THIEVES NEARLY ALL MINORS

A remarkable feature of the many thefts of autos in this and other communities is that whenever the thieves are apprehended they are found to be young boys. Two such were arrested yesterday in Los Angeles in a car they had stolen and proved to be boys of 17 and 18. They confessed to have stolen several cars, driven them for a time after night and then abandoned them in the streets.

SON ARRIVES SAFELY IN LONDON

R. A. Salisbury and wife of 1106 North Central avenue have just received a cable message from their son, B. R., announcing the safe arrival of himself and wife in London. They had been quite anxious as to his safety because of the stormy weather on the ocean recently. He went as manager of the London branch of the Allied Machinery Co. of New York and took his entire office force with him. He expects to be absent three years.

BURGLAR CAUGHT

FATHER O'NEILL IDENTIFIES MAN WHO BURGLARIZED HIS RESIDENCE

Father James O'Neill is proving himself efficient as a citizen to assist in bringing the evil doers to time. A few weeks ago on a Saturday afternoon one Earl Fuller, a man of about 24 years of age visited Father O'Neill at his residence and inquired as to what steps he should take to unite with the Holy Family Catholic church. Father O'Neill very kindly gave the stranger a hearing. Upon his departure, Fuller informed Father O'Neill that he would return the next forenoon when he would take up the question of becoming affiliated with the church more fully.

Now it comes to the knowledge of Father O'Neill that Fuller did keep his word and came back as he had promised, but it was for the purpose of burglarizing the residence as evidence now reveals. Fuller was arrested in Los Angeles a few days ago while in the act of burglarizing a house, and with his belongings was found the revolver that had been stolen from Father O'Neill. He has since been identified by Father O'Neill as the man who visited him on the pretense of joining the church. Fuller and his accomplice are now in the county jail. Fuller claims to have recently come from the state of Georgia.

WEATHER FORECAST—Fair except cloudy or foggy tonight and in the early morning near the coast.

CORPUS CHRISTI APPEALS FOR AID

CITY STRICKEN BY HURRICANE ASKS OUTSIDE WORLD FOR FINANCIAL RELIEF AT ONCE

CORPUS CHRISTI, Texas, September 17.—Former Mayor Brown, chairman of the Corpus Christi Relief committee, has made an appeal through the United Press to the outside world for financial relief for the stricken area.

He declared financial aid is needed immediately. "We need the aid of all who can help," he said. Mr. Brown said that any statement regarding the death list can be no more than a bare estimate at the present time but he expects the list will not exceed two hundred in Corpus Christi.

Colonel Porter in command of 350 troops is in control of the city. Troops are patrolling the streets in a cold, drenching rain. Three relief trains have arrived with food and clothing for the 4000 refugees.

KNOWN DEAD IN STORM NEAR TWO HUNDRED

ONE HUNDRED NINETY-SEVEN BODIES HAVE BEEN RECOVERED AT POINTS ALONG CORPUS CHRISTI BAY

(Special Service to Glendale Evening News)
CORPUS CHRISTI, Texas, Sept. 17.—Reports this morning showed that the list of known dead in Sunday's tidal wave and hurricane has reached 197. Bodies have been recovered as follows: Corpus Christi, 51; Portland, 39; Aransas Pass, 6; Rockport, 7; White Point, 27; Rosits, 30; Odum, 9; Port Aransas, 6; Taft, 22.

An unconfirmed report said 27 additional dead had been found near Corpus Christi. Relief work is well under way.

WILSON ANSWERS LABOR COUNCIL

ISSUES REPLIES TO FOUR QUESTIONS ON THE LEAGUE OF NATIONS PROPOUNDED TO HIM

(Special Service to Glendale Evening News)
ABOARD PRESIDENT WILSON'S TRAIN NEAR SAN FRANCISCO, Sept. 17.—President Wilson has answered four questions propounded to him by the San Francisco Labor Council, declaring:

That the League of Nations covenant does not obligate the United States to assist any other nation in putting down a rebellion of subjects or conquered peoples.

That the covenant does not limit the independent action of the United States in regard to this government recognizing another government whose people are attempting to become independent of another nation, a member of the League.

That it was not possible for the peace conference to consider the claims to self-determination of any race not controlled by the Central Empires, but article 2 of the covenant establishes a forum where other races may seek a hearing.

That Ireland was not heard before the peace conference because it was without the jurisdiction of the conference.

PRESIDENT WELCOMED IN SAN FRANCISCO

WILD CHEERING AS WILSON'S AUTO PROCEEDS FROM FERRY UP MARKET STREET TO CIVIC CENTER

(Special Service to Glendale Evening News)
SAN FRANCISCO, Sept. 17.—Wild cheering this morning welcomed President Wilson to the home city of Senator Hiram Johnson, the chief opponent of the League of Nations.

Mayor Rolfe, Governor Stephens, Lieut. General Liggitt and other notables welcomed the President at Oakland.

The President crossed the bay on a special boat and as he passed the Goat Island naval training station the shore guns fired the Presidential salute.

Marines and sailors presented arms as Wilson's automobile left the ferry building on arriving in San Francisco, and started up Market street.

The cheering soon began. From the ferry to the civic center thousands shouted, clapped hands, clanged cow bells, roared through megaphones, threw flowers and serpentine and made high carnival.

The President stood in his auto the entire distance bowing and smiling.

Arriving at the civic center, the President entered the grand stand and looked out over the crowd, but he made no speech. He left at once for his hotel and went to his room to rest.

PRINTERS' DEMANDS TOO GREAT

NATIONAL MAGAZINES WILL LEAVE NEW YORK IF DEMANDS OF PRINTERS' UNION ARE PRESSED

(Special Service to Glendale Evening News)
NEW YORK, Sept. 17.—Secretary Thayer of the New York Publishers' Association has issued a formal statement to the effect that three National magazines will suspend publication in New York and move elsewhere to avoid the demands of the New York printers' union.

He declared there are 150 other publications ready to take the same action if the demands of the union are pressed. He said they will move to western cities.

IN WONDERLAND

YOUNGS AND BAIRDS SEE MANY STRANGE SIGHTS ON RECENT TRIP

The auto camping trip from which Dr. T. C. Young and wife and A. L. Baird and wife have just returned, crowded into four short weeks as much adventure and sightseeing as falls to the lot of many in a long lifetime. They followed the coast route, on the going trip, to Hayward and there branched off to the right and went via Stockton, Sacramento, Chico and Chester. Their second day's run was from Paso Robles to Sacramento, 301 miles. At Chester they were met by the Indian guide they had arranged with. He had a big wagon loaded with hay and grain for the four horses that were hitched to it and which were to be used in the hunting trips. The 12 miles from Chester was a rough climb up a very steep, winding road to Juniper Lake on the banks of which they made their camp. It is right at the foot of Mt. Harkness, 9200 feet above sea level. It is really a peak rising about 2000 feet from the plateau on which Juniper Lake, 7300 feet above sea level, lies. They had a complete camping outfit and soon all was in place and they prepared to enjoy themselves. Game was plentiful and both the men soon secured their limit of deer. The ladies entered into the hunt with great zest, accompanying their husbands on some exceedingly hard trips through dense brush, down into canyons and over rough crags. They got several shots at deer, but they did not get the deer. Mountain quails and Tamarack squirrels were abundant and they made many a good meal from them. But the crowning hunting feat was the killing of a huge porcupine, one of the largest he had ever seen, the Indian guide said. Dr. Young carefully skinned it and brought home the skin for mounting. On Saturday, August 30th, they enjoyed a heavy snowstorm, and proved their ingenuity by improvising overshoes out of old inner tubes, cut into convenient sections, slipped on over the shoes, turned up at the toes and fastened in place with strings. In tramping around the men came across bear tracks and they eagerly followed the trail. It wound in and out and finally crossed their own tracks, but they lost it in the inaccessible wilds. They made several very interesting side trips. One was to Cinder Cone, an extinct volcano, which was reached by an exceedingly hard climb. They had to go the last mile on foot, pulling themselves up a few steps at a time. The ladies accompanied them and pluckily held their own with the men. At the top they found a crater 300 ft. across and 150 feet deep, carpeted with fine cinders (Continued on Page 3)

CHARGE DISMISSED

CASE AGAINST CRYSTAL ICE & COLD STORAGE CO. HEARD BY CITY TRUSTEES

The hearing in the case against the Crystal Ice & Cold Storage Co. came off last night in the Council Chamber, as announced. Miss Fredrica Greve, living near the plant, had secured signatures to a paper declaring it a nuisance as conducted and praying the city trustees to set aside an industrial district for the city and compel the removal of this plant thereto. Of the 22 names signed to this paper, 10 were afterwards withdrawn.

Col. Tom Thornton and Attorney Owen Emery represented the Ice Co. and C. W. Kinnam conducted the case for the petitioners. After all the witnesses had been examined Mr. Emery briefly summed up the evidence and then moved that the charge against the Crystal Ice & Cold Storage Company be dismissed. After a brief consultation by the trustees it was so ordered. The matter of the Industrial District was not entered upon.

ANOTHER AGED RESIDENT PASSES AWAY

George F. Stine of 433 East Aca-cia avenue passed away at the Good Samaritan Hospital in Los Angeles, September 16th, at the age of 77 years. Deceased was a native of Hanover, Pa. He leaves to mourn his loss five children: Miss Rose Stine, Mrs. Beulah Smith, Mrs. Chas. P. Coates, Geo. J. Stine and Orin P. Stine.

Funeral services will be held Thursday, September 18th, at 2 p. m., at the Little Church of the Flowers, Forest Lawn Cemetery, the L. G. Scovern Company in charge.

ENTERTAINS EMPLOYEES

GLENDALE LAUNDRY WORKERS GIVEN FINE SPREAD BY EMPLOYER, MR. HEWITT

W. E. Hewitt, proprietor of the Glendale Laundry, has some kind of a surprise for his working force each year and this time it took the shape of a regular dinner. Three long tables were placed end to end under the big oak tree just west of the laundry. On these were placed a choice selection of eatables—roast beef, mashed potatoes, gravy, bread, butter, coffee, cake and ice cream. The full working force of 38 people sat down to the feast and did it ample justice. After all had done their full duty in this respect, there was a "feast of reason and flow of soul" in the shape of several speeches. Mr. Hewitt spoke in praise of the loyalty of his helpers and advised a getting together and staying together spirit. His words found instant response in all hearts. Mr. Jackson, Mrs. Brock and Mrs. Inglis spoke in behalf of the employees and evidently voiced their sentiments exactly, judging from the applause given them. A pronograph discoursed sweet music while the feast was going on.

A JOYOUS DOVE HUNT

Norman Otis and Al Land oiled up their trusty "weepins" last Sunday, filled their belts with cartridges, donned their hunting suits and hid them away in search of the gentle dove. They went out in the wilds near Calabasas and went earnestly to work at the task of filling their capacious game bags and getting the limit. Norman said he quickly killed his number and then generously turned to and helped Al fill his quota, which proved not a hard task; and that Al really enjoyed seeing him bring down the birds more than shooting them himself.

THE FORESTER'S NAUGHTY AX

The very latest excitement on Myrtle street is that caused by the City Forester cutting down a thriving young pepper tree in front of the F. C. Peters' residence at number 425. The act was done to protect a small camphor tree so says the man who did the cutting. But that explanation does not suit Mrs. Peters who was depending upon the shade of the pepper tree knowing that the camphor tree would not provide shade for many years to come. Mrs. Peters is much opposed to such sentimental doings and is of the opinion that property owners should be at least consulted before shade trees on the parkings are cut down.

CHURCH NIGHT PROGRAM

The young people who are serving the church night suppers at Central Christian Church this month are making quite a success of it and their menus compare most favorably with those furnished by the committees composed entirely of housewives. The number partaking last Wednesday night was nearly 50 and an equally large attendance is looked for tonight. Committee meetings and prayer meeting will follow, the subject of the latter being "World Outlook for Missions in the Philippines and Our Other Island Possessions." It is a missionary meeting, and the women of the C. W. B. M. Auxiliary are expected to take a prominent part.

ALMOST PERSUADED

A WARNING TO LOOK OUT FOR WORTHLESS CHECK PASSERS

Frank Booth of 318 East Broadwayway informs the Evening News of an attempt by a stranger to pass a bad check on him. He says: "Monday, after banking hours, a stranger came into my store and ordered a bill of goods amounting to a little over \$5 and tendered in payment a check for \$20 on a Los Angeles bank. Of course, I had no change for a strange check, presented by a man I had never seen, so he finally said to send the order next morning. C. O. D. and meantime he would cash the check at the All Night and Day Bank in L. A. Of course that was his way of trying to assure me the check was good. When I took the goods to the address given the next morning, no such person was known there. He was a small man, clean shaven, with sharp features. He was dressed in black and wore a black Fedora hat. Other Glendale merchants should look out for him. I have always refused to cash checks for strangers especially after banking hours."

ANOTHER 14 POINTS

Here are 14 points that opponents of the League of Nations raise against the ratification of the peace treaty:

1. The Shantung provision is international piracy, bringing dishonor to any nation party to it.
2. Great Britain is given six votes to America's one, without justification in reason.
3. By entering the league, America would abandon her traditional policy of non-interference in European affairs.
4. The Monroe Doctrine would be subject to interpretation by the league council, as asserted by British officials without contradiction.
5. The United States would be bound to maintain armies in Europe to regulate purely European affairs.
6. Our constitutional provision that congress shall have power to raise armies would be violated.
7. Domestic questions, such as immigration, tariff, and coastwise trade, will come within the jurisdiction of the league if the foreign council so decides.
8. Insignificant nations, like Liberia, Hedjaz, would have voting power in the assembly equal with the United States.
9. The United States would be bound to preserve the territorial integrity and political independence of every member of the league, many of them monarchies.
10. By bringing the charge that it involves a threat of war, any nation could require the United States to submit any question to the league for decision.
11. Article 23 requiring free transit and equitable treatment of commerce could be construed to forbid protective tariffs.
12. America, industrially and financially strong, would become the burden-bearer of the world.
13. The league covenant obligates the United States to give full and frank information concerning industries adaptable to warlike purposes, thus putting American industry at a disadvantage, since most important industries are of such character.
14. America has nothing to gain and much to lose by entering the league.—Sandusky, Ohio, Register.

THE PART OF PRODUCTION

The origin of the propaganda for shorter and less exacting hours for work lies in the remote past. The advocates of democracy foresaw clearly that unless a majority of a nation could be emancipated from body-breaking and mind-wrecking toil, that nation would never be capable of self-government.

Organized labor was quick to appropriate this idea, and has used it with telling effect in its effort to shorten the hours of labor, for the avowed purpose of increasing at the same time the number of jobs.

During the long period when there was a world surplus of goods and a world surplus of labor this policy was not unjustifiable. But clearly what might have been justified such conditions is indefensible under the existing ones.

For labor to use its strengthened position to force working hours below the point of health requirements is merely to promote vicious idleness, and to promote such idleness at this time, when civilization needs more of the products of industry than ever before, is to commit a moral crime against civilization and to invite economic disaster.

In their campaign for shorter working hours labor unions in the past have had the support of medical science and the aid of all right-thinking men and women. The reduction of hours to a just standard has been of immeasurable advantage to all organized society.

But in their effort at this time to reduce the working day beyond the health limit fixed by experience and medical science they are arraying labor as a class against all other elements of the body politic.

can escape the conclusion that many factors enter into the problem. But no less can he escape the obvious fact that the one fundamental, permanent factor in any effective remedy is that of greatly increased production.

Decreasing production is one of the chief causes that give to a legal dollar only a 50-cent purchasing power. Scarcity of goods makes profiteers of manufacturers, middlemen and retailers almost against their will.

Even President Wilson, whose policy of unpreparedness and whose ill-considered dealings with organized labor created the vicious cycle of constantly ascending high prices, has now come to the conclusion that the only permanent solution of the high cost of living lies in increased production.—Philadelphia North American.

Personals

R. M. McGee, who is visiting in his old home town, St. Louis, Missouri, writes home that he is enjoying his visit immensely.

M. J. Brennan is preparing to start on his trip through California as salesman, so has ordered his copy of the Evening News sent to his wife, who is visiting in Oak Park, Ill.

J. H. Springer, wife and two children, Miss Marian and Ralph, of 534 Oak street, spent last week at Long Beach. They took their tent along and camped on the sands.

Earl Hartley, of Horton, Kansas, is here as the guest of his parents, W. S. Hartley and wife, 555 Oak St., and expects to stay a month. He has a wife and two children and owns a good farm near Horton.

Mrs. Shives Mitchell, who with her little son, Billy, has been spending several days with her mother, Mrs. Ella Richardson, 525 South Central avenue, will leave for her home in King City tomorrow.

Mrs. Edna Irene Sawyer's new house at 515 Oak street is nearing completion and the renters are anxiously awaiting the time to move in. New houses for rent are engaged as soon as the foundations are laid down.

Mr. and Mrs. Malcolm McLaren, of 303 North Jackson street, expect to leave shortly for a visit with relatives in the east. They will visit Mr. McLaren's relatives in Wyoming and Mrs. McLaren's family in Chicago and Iowa. On their return they will stop at San Antonio, Texas.

Prof. Alfred Cookman commenced his work as General Supervisor of Agricultural Work in the Santa Monica Schools. He has 150 in his General Science class. Prof. Cookman is a recognized authority on Biology and Agriculture and has many calls for lectures on these subjects.

Mrs. C. W. Chalfant of Portland, Oregon, who has been spending the summer with her mother, Mrs. J. H. Mellish here and at the beach, came up last Saturday from Redondo Beach, where they have been staying and remained until today. She expects to start for home on the 24th.

Robert C. Vrooman and wife moved to Glendale from Tacoma, Wash., two weeks ago and are occupying the house at 440 Ivy. Last Saturday Charles E. Vrooman, Robert's brother, moved here with his wife from Long Beach. Robert is a plumber and Charles an expert auto repairer, specializing on radiators and fenders. They have opened business in the building formerly used by the Richardson Transfer Co., 113 West Broadway. The Vroomans are brothers of Mrs. Geo. Tyrrell, of Palm Drive.

P-T. A. MEETING

The Broadway P-T. A. will meet tomorrow afternoon at 3:15 in the school building to organize for the year's work and get acquainted. Mr. Marek, City Forester, will talk of his work and of its worth to the mothers and children of the city.

FAREWELL PARTY FOR COLLEGE

The Live Cole Class of the Central Christian Bible School will give a party Thursday evening at the home of Mrs. Eva Hutton, 326 East Colorado, in honor of its members who are going away to college, namely, Misses Bessie Jeter, Louise Hester, Martha Ray and Florence Heacock, and Willard Learned; also Miss Grace Shropshire, who leaves soon for an extended visit in Kansas City, Mo., and Lawrence, Kansas.

BASEBALL CHAMPIONSHIPS

Glendale baseball fans are already speculating on the outcome of the world's championship games to follow the close of the playing season. Cincinnati has clinched the National League championship and Chicago is practically certain of landing the pennant in the American League. In the Pacific Coast League the Los Angeles and Vernon clubs are fighting hard for first place and no one can predict the outcome.

The Imperial Valley is at last getting to be a real place. A circus is billed for there this fall.

The absurdity of technical objections in law cases was shown Tuesday, in a Los Angeles court, when the point was made that an indictment was worthless because it did not state that a young girl, one of the parties in the suit, was a woman.

CARD OF THANKS

We wish to extend our most heartfelt thanks to the young ladies who sang so sweetly, also to the lovely neighbors and friends who so faithfully aided us in our sad bereavement.

MR. and MRS. L. C. RUSSELL,
MRS. J. E. COREY.

NOTICE

On account of our recent bereavement, we will not open our bakery before Tuesday, Sept. 23d. The Russell Purity Bakery, 718 East Broadway.

WAR'S EFFECT ON U. S. POPULATION

(By United Press)

WASHINGTON, Sept. 17.—Striking changes in the growth and character of the population of the United States are expected to be shown by the 1920 census, preparations for which are under way.

The shifting of population because of the war has upset the calculations of census experts, who since 1917 have considered it useless to attempt to estimate population of any other units than states. Before that, it was possible to predict with a fair degree of accuracy the number of persons in any given locality.

The "center of population," it is believed, has stopped its westward movement, which was continuous from 1790 to 1910, when it was located in Bloomington, Ind. This is because industrial cities in the central east, such as Cleveland and Detroit, have been growing at a greatly increased rate during recent years, as have manufacturing centers further east. Formerly the Rocky Mountain and Pacific Coast states increased in population with twice the rapidity of eastern and central states.

During this year, however, certain modifications of the unusual situation may be made. The opening of reclamation projects in the west, the resumption of immigration, and other causes, it is thought, will change the abnormal distribution. There will also be a tendency to return to normal now that the war is ended.

Pronounced changes are expected also in the "constitution of the population"—the ratio of males to females, the proportions of native and foreign stock, and the age distribution. When a city experiences a rapid growth due to industrial and commercial activity, the gain in population is largely made up of persons in the young and early middle ages. Among these persons there will be more men than women. For example, in Oklahoma City, where the population grew nearly 500 per cent between 1900 and 1910, the ratio of males to females in the latter year was 126 to 100, and 62 per cent of the population was between 15 and 45.

The coming census is also expected to show a continuation of the movement from the country to the city, which has been going on for many decades. A further decrease in the proportion of negro population is expected. In 1900 negroes numbered 11.6 per cent and in 1910 10.7 per cent.

It is expected that the percentage of foreign-born will show a marked decline, due to the discontinuation of immigration. In recent years the native-born population did not increase as rapidly as the foreign-born. Fewer persons will be found, it is predicted, who are unable to speak English.

CONGREGATIONAL MISSIONARY SOCIETY

The Missionary Society of the Congregational Church will hold its regular meeting Thursday at 2:30. This will be more of a social meeting than usual, being in the form of a "Book Social," and each lady is asked to wear or carry something representing a favorite book or a character in one.

This will be at the home of Mrs. H. W. Varick, 347 West Wilson avenue, and all members and friends will find a welcome.

W. C. T. U. MEETING

The W. C. T. U. will meet Friday afternoon at the home of Mrs. A. K. Crawford, 301 North Cedar street, one block north of the Eagle Rock car line. Mrs. R. W. Mottern, wife of the Lutheran pastor, will bring a message from the east.

DAZZLES ALL EYES

JESSE SMITH IS PROUD OF THAT GLITTERING NEW FORD COUPE

Jesse E. Smith is dazzling the eyes of all beholders these days as he dashes about in that shiny new Ford coupe with demountable rims, electric lights and starter. He don't take a back seat to any of them. And, by the way, he says that the time is coming soon when every Ford machine turned out of the factory will be thus equipped—coupes, Sedans, Touring Cars, Roadsters and Trucks. And all will be thus equipped in the main factory.

Asked about the report that all Ford machines would have to be equipped with batteries, as announced recently in some of the daily papers, he said the whole thing was an advertising scheme of a company having batteries for sale. The Ford Company has taken up the matter with the State Motor Vehicle Department and is confident it can show cause why no such requirement should be made of Ford owners. The company will stand firmly behind all owners of Ford cars and see that their interests are safeguarded.

IN WONDERLAND

(Continued from Page 1)

such as are raked out of the firebox of an engine. Back from the edge of the crater the cinders were much larger, such as are left when burning a cheap grade of coal. At the last eruption of this volcano, according to the Indian guide, a huge section fell into a small lake at the foot of the mountain and cut it in two. Another wonderful trip was to the Devil's Kitchen, at the mouth of a canyon in the side of Mt. Lassen. Here are great pools of boiling mud, red, yellow and black that constantly seethe and bubble and give off steam. Through this sea of mud meanders a little creek so strongly impregnated with sulphur that the smell of the waters is offensive. Another wonder of this region is a boiling lake eight miles across, from which there arises constantly a dense cloud of steam. A family by the name of Drake have established a little health resort not far from this lake, which they have named Drakesbad. One of the attractions of this is a bath and swim in a cement reservoir filled with hot water from the boiling lake. Of course, the outstanding feature of the landscape is Mt. Lassen, with its crown of eternal snow. There are many reminders of the great eruptions of two and three years ago, lava in great sheets and stones thrown from the crater.

It was with keenest regret that the party turned their backs on this scene of Nature's mighty works and began the homeward journey. The return trip was made along practically the same route as the journey going. Oakland was visited, however, and a passenger taken on—Mrs. Geo. Burtcher, sister of Mrs. Baird, who came down for a visit in Glendale.

BOOTH AT CENTRAL AVENUE M. E. CHURCH

Charles Brandon Booth, because of his vital connection with the Volunteer Prison League, the work founded by Mrs. Maud Ballington Booth, and consequent contact with hundreds of discharged and paroled prisoners, is one of the best qualified lecturers obtainable to speak on "The Reclaiming of the Prisoner," the subject of his address at the Central Ave. M. E. Church this Wednesday evening, on the occasion of a Union service of the Methodist and Presbyterian Churches of Tropic.

For over ten years he has been in constant touch with the many interests of this important subject. In the prison field he has studied the lives of men and women known to the world as the "given-ups" and from their varied experiences and remarkable reclamation has learned the lesson of the redeemability of human nature.

Mr. Booth's lecture deals with facts and not with theories. His treatment of the subject is intensely practical and he lays stress upon the essential reforms which must be accomplished for an adequate solution of the prison problem.

THEIR BROTHER'S KEEPER

Jazzbo, the man from Mars, was making a flying trip to the various capitals of the world to observe the wisdom with which the nations ruled themselves.

His first stop was Washington, where congress was in the act of passing a resolution beseeching England to please wear rubber heels if she persisted in treading on the long suffering necks of the Irish.

"How perfectly charming and humane!" thought Jazzbo. "To think of a country so perfect that it can de-

vote its time to the moral betterment of other countries!"
And he hopped to London, where he found parliament preparing a message begging Mexico to speak harshly to her bandits and, if necessary, to even take their guns away.
"How exceedingly bizarre!" thought Jazzbo.
And he skipped to Paris just in time to find the chamber of deputies drafting an appeal to the United States to please remember, if they insisted on lynching negroes, that this is the age of anaesthetics.
"Well, I'm another!" thought Jazzbo, although he hardly ever used slang. And three French fire engines, looking for a fire, ran over him before he recovered from his daze.

BIG MONEY FOR BILLIARD CHAMPS

(By United Press)

NEW YORK, Sept. 17.—Tournaments to determine the national billiard and pocket billiard champions of America will take place this fall.

The tournament for the 18.2 ball-line billiard championship will open here October 20th at the Astor Hotel. The entries will be limited to a field of six players with an entrance fee of \$250. The games will be 400 point affairs. The first prize will be \$2,500, second \$1,750, third \$1,250 and fourth \$750. In addition the winner will draw an annual salary of \$4,000 as long as he holds the title. The three-cushion championship tournament will be held at the Moose auditorium, Cleveland, starting November 6th. It will be contested by ten players for prize money aggregating \$4,500. To the winner goes \$1,500 and an annual salary of \$2,400, second prize is \$1,250, third \$1,000 and fourth \$750.

The pocket billiard series will be held at the Parkway auditorium, Philadelphia, starting November 1st. Prize money runs the same as the other series with an annual salary of \$2,400 to the winner.

The three champions decided in the tournament will then stage an eighteen weeks' tourney for which they will receive \$100 per week and up.

JANITORS' PAY HIGHER THAN THE PROFESSORS

(By United Press)

NEW YORK, Sept. 17.—College

KIND HEARTS O'ER THE SEA

The flowers around bloom bright and fair,
Sweet jewels of the sod;—
Deck'd in bright tints beyond compare,
Fresh from the hand of God.
Nature strews gems on every hand,—
But dearer far to me
Are the kind hearts in my native land,
And kind hearts o'er the sea.

Soft breezes fan my heated brow,
As 'neath the trees I rest,
Their swaying branches gently bow,
In rich luxuriance drest;—
Could I but wield a Fairy's wand,
To gain one wish, 'twould be,
For the kind hearts in my native land,
And kind hearts o'er the sea.

The river murmurs as it sweeps,
A passing lullaby
Hast'ning to join the mighty deeps
Of Ocean's mystery.
I fling my message from the strand
In hopes it may reach thee,—
Thou kind hearts in my native land,
Thou kind hearts o'er the sea.

Oh! may I never taste the pain
Of friends' forgetfulness!
My heart could never bear the strain
Of loveless loneliness.
To each dear one I stretch my hand,—
Wherever thou mayst be,—
Dear kind heart in my native land,—
Or kind heart o'er the sea.

F. BOOTH,

Sept. 15, 1919.

318 E. Broadway, Glendale, Cal.

professors are worse paid than janitors and scrubwomen in the same institutions, charges Gardner B. Perry of Albany, a Harvard graduate who is chairman of the Eastern New York endowment committee to raise funds for Harvard University. The university wants \$11,000,000.

"So long as the janitors of our college halls and the scrubwomen of the libraries get larger salaries than pro-

fessors, just so long shall we be in danger of seeing our universities become second rate schools of advanced education," he said.

"The remedy for this condition is not lowering the pay of the janitors and scrubwomen, but raising those of our teachers."

Advertise it, or advertise for it in the Evening News.

WATERMAN'S THE STANDARD

Are you in the market for a GOOD fountain pen? Unless you now own a Waterman, you are. This popular writing instrument is made in so many sizes and styles that we know we have something that will just suit you. In fact, we will keep exchanging for you until you are suited.

The pens are made with fine, medium and stub points or to match the action of any steel pen; the holders in the self-filling, safety and regular types. There are several sizes in each type, and gold banded and full gold and silver covered in each style.

The WATERMAN is the Standard everywhere, the practical pen for college, school, business and home use.

Wonderful Opportunities in the Automobile Field

The history of American industries shows nothing which can compare with the rapid growth of automobile manufacturing. In the past few years a wonderful industry has been developed. In the United States alone there are over 500 factories at work on automobile construction, representing a capital of about \$2,000,000,000. Besides there are about 32,000 dealers in the United States employing several hundreds of thousands of men and women.

The development of automobile delivery trucks and light wagons is proceeding rapidly and every year sees the introduction of new makes in large numbers.

The demand from factories, garages, and salesmen for trained men is a direct result of this marvelous growth. The supply of such men is small—their pay correspondingly high. This is the field of opportunity you can enter through the sure, easy Home-Study Courses of the

International Correspondence Schools OF SCRANTON, PA.

Hundreds of thousands have proved it. The designer of the Packard "Twin Six" and hundreds of other engineers have climbed to success through I.C.S. help. For 28 years young men in offices, stores, shops, factories, mines, railroads—in every line of technical and commercial work—have been winning promotion and increased salaries through the I.C.S. Over 130,000 men are getting ready right now in the I.C.S. way for bigger jobs ahead. No matter where you live the I.C.S. will come to you. No matter what your handicap or how limited your means, the I.C.S. have a plan to meet your circumstances. No matter how small your previous education, the simply written, wonderfully illustrated I.C.S. textbooks make it easy to learn.

Co-Designer Liberty Motor

I take great pleasure in recommending your Courses to any young man who is ambitious and anxious to get the necessary education to enable him to make the most of his opportunities.

JESSE G. VINCENT,
Vice-President of Engineering, Packard Motor Car Company, Detroit, Mich.

Complete Automobile Course

If you want to become an expert automobile driver, chauffeur, or mechanic you should study the I.C.S. Course in Automobiles, because it will acquaint you with the principles of operation, the details of construction and the types of apparatus used, making you an expert in your work. The Course is full of hints and suggestions covering all troubles and needs that may arise. As an automobile owner you cannot afford to be without the knowledge contained in this Course, whether you drive your car or employ a chauffeur. Ignorance is not only expensive to the owner, but it is dangerous to the occupants of a car.

May we help you plan Your Summer Vacation ?

DO YOU WANT DETAIL INFORMATION RELATIVE TO SAN BERNARDINO MOUNTAIN RESORTS

Agents of this company, upon request, will provide you with folders descriptive of any of the beautiful, healthful resorts of the San Bernardino Mountains.

They will ascertain for you without cost whether accommodations are available at any of them, and at what cost.

They will advise you and assist you in shipping your own camp outfit to any point accessible in the mountains, and arrange for its return to your home destination after your vacation.

They will arrange all your transportation details gladly, so that every feature of the journey may be so far as possible be pleasant and your stay among the great trees of our own mountains the happiest days of your lives.

Call upon them freely.

AT STUD

the handsome, vigorous, naturally hornless, true to type, pure bred Swiss Toggenburg Buck "Rex," No. 2512. As kingly as his name implies. His sire "Chieftain of Ranch 57," No. 2112—his dam the "Princess Louise," No. 739, probably the biggest and most prolific 6-quart milker on the Pacific Coast, producing 14 strong, healthy kids in four kiddings.

Rex's kids are perfect beauties. Come and see him for yourself, or call for me by phone. Service fee \$5.00, including free delivery for first 30 miles. Remember the price and don't forget the new phone number, Glen. 364.

CALIFORNIA SWISS GOAT RANCH
J. H. THOMPSON, Prop.,
1029 N. Pacific Ave.,
Near Dryden Ave., Glendale.

CERTIFICATE OF BUSINESS Fictitious Firm Name

The undersigned do hereby certify that they are conducting a real estate and insurance business at 110 S. Brand Blvd., Glendale, California, under the fictitious firm name of Whiting & Hawkins and that said firm is composed of the following persons, whose names and addresses are as follows, to-wit:

Calvin Whiting, 342 W. Lexington Drive, Glendale, California.
Josias Hawkins, 420 E. Harvard Street, Glendale, California.

Witness our hands this 3rd day of September, 1919.

CALVIN WHITING,
JOSIAS HAWKINS,
STATE OF CALIFORNIA.)

County of Los Angeles,) ss.

On this 3rd day of September, in the year nineteen hundred and nineteen, before me, Stella Smith, a Notary Public in and for said County, residing therein, duly commissioned and sworn, personally appeared Calvin Whiting and Josias Hawkins, known to me to be the persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same.

Witness my hand and official seal.
(Seal) STELLA SMITH,
Notary Public in and for said County and State of California.
